SUMMARY

Electronics and Communication Engineering student with strong foundations in Java and python programming, problem solving, and software development concepts. Experienced in AI workflows, testing, and collaborative project execution with a keen interest in software engineering and technology innovation.

EDUCATION

B.E IN ELECTRONICS & COMMUNICATION ENGINEERING – KLS 2022 – 2026 | CGPA: 8.42
VISHWANATHRAO DESHPANDE INSTITUTE OF TECHNOLOGY, HALIYAL (VTU)

PUC (SCIENCE) – PRISM PU SCIENCE COLLEGE, DHARWAD 2020 – 2022 | 78.83%

SSLC – BASEL MISSION ENGLISH MEDIUM HIGH SCHOOL 2020 | 80.45%

SKILLS

Programming Languages: Java ,Python | Web Technologies: HTML5, CSS3 , JAVASCRIPT |
Database Management: RDBMS, MySQL |
Core Concepts: OOPs, DB Design , Embedded Systems , Microcontrollers |
Tools & Platforms: VS Code, Git, Arduino IDE , keil , Matlab

INTERNSHIP AND TRAINING

Arctictern Solutions Pvt Ltd | Trainee Engineer | Jan 2026 – May 2026

Contributed to Computer Vision and AI model development by performing quality assurance, testing, and real-world data optimization to enhance accuracy, robustness, and performance.

GalaxyTooling, Pune Intern(24th July 2025 – 30th July 2025)

Gained industry-level insight into operational procedures and workplace standards during internship.

PROJECTS

Vision Speak, Tech Stack: Python, Computer Vision, AI

Developed an AI-based application that converts visual inputs into meaningful audio outputs for accessibility.

Used image processing and real-time object detection to improve user interaction.

Command Control Robotic Arm, Domain: Embedded Systems | Robotics | IoT

Built an ESP32 Bluetooth-controlled robotic arm for wireless pick-and-place operations via a mobile app. Integrated servo motor control and embedded programming for precise real-time movement.
